

MONOBLOC AEROSOL CANS

Monobloc aerosol cans are designed with excellent barrier properties that preserve product freshness by preventing air and moisture ingress. Their seamless construction ensures a perfect seal, maintaining the integrity of the contents. With soft, flexible exteriors, these cans provide a tighter seal and enable fast filling, enhancing production efficiency.

APPLICATION :

- ~ Pharmaceuticals
- ~ Perfumes
- ~ Chemicals
- ~ Paints

At Ishan Industries our cans are available in various sizes and customizable options, including:

- Cylindrical or custom profiles
- External coatings in white, custom colors, transparent, or opaque
- Plain or lacquered internal linings
- Offset printing in up to 5 colors
- Clear over-varnishes in glossy, matte, or special effect finishes

These versatile features make our monobloc aerosol cans a reliable and visually appealing packaging solution.

DIAMETER (mm)	DIMENSIONS (mm)	FILLING VOLUME (ml)			SHOULDER'S SHAPE & OPENING
